Gemmar[®]
Lifting the Moment

Our commitment to

Lifting the Moment, Loving our Planet

🇬🇧 Sustainability & Environment

We are committed to sustainability at every step. Gemar balloons are made from natural, renewable caoutchouc and are available in a 100% FSC®-certified range. Our packaging is recyclable or reusable, and our production is powered by clean solar energy. We support reforestation through projects like Treedom and promote safe balloon use to protect the environment.

🛡️ Safety & Ethics

Safety and ethics are at the heart of what we do. Our balloons are proudly made in Italy and meet the highest EU standards, certified by TÜV, SGS, and Intertek. We are active members of SEDEX, EBPC, and the UN Global Compact, reflecting our ongoing commitment to transparency and responsibility.

👥 People & Community

Gemar is a family business that values people. We ensure fair working conditions and support both local and global communities through education, cultural events, and creative training initiatives like Balloonista. Together, we grow, share, and inspire.

📍 Heritage & Innovation

With over four generations of expertise, we proudly blend tradition with innovation. Every balloon is produced in-house in Italy, guaranteeing quality and authenticity. Our R&D team constantly explores new solutions to improve efficiency and sustainability, driving the industry forward.

🇫🇷 Durabilité & Environnement

Nous nous engageons en faveur du développement durable à chaque étape. Les ballons Gemar sont fabriqués en caoutchouc naturel et renouvelable, également disponibles en gamme 100 % certifiée FSC®. Nos emballages sont recyclables ou réutilisables, et notre production est alimentée par une énergie solaire propre. Nous soutenons la reforestation avec des projets comme Treedom et encourageons une utilisation responsable des ballons.

🛡️ Sécurité & Éthique

La sécurité et l'éthique sont au cœur de notre mission. Nos ballons sont entièrement fabriqués en Italie et respectent les normes européennes les plus strictes, certifiés par TÜV, SGS et Intertek. Nous sommes membres actifs de SEDEX, EBPC et du Pacte mondial des Nations Unies, preuve de notre engagement en faveur de la transparence et de la responsabilité.

👥 Personnes & Communauté

Gemar est une entreprise familiale qui valorise les personnes. Nous garantissons des conditions de travail équitables et sûres, et soutenons les communautés locales et internationales par des actions éducatives, culturelles et créatives comme le programme Balloonista. Ensemble, nous grandissons, partageons et inspirons.

📍 Héritage & Innovation

Avec plus de quatre générations d'expérience, nous combinons tradition et innovation. Tous nos ballons sont produits en interne en Italie, gage de qualité et d'authenticité. Notre équipe R&D développe en continu de nouvelles solutions pour améliorer l'efficacité et la durabilité.

🇪🇸 Sostenibilidad y Medioambiente

Nos comprometemos con la sostenibilidad en cada etapa del proceso. Los globos Gemar están hechos de caucho natural y renovable, también disponibles en una gama 100 % certificada FSC®. Nuestros embalajes son reciclables o reutilizables, y producimos con energía solar limpia. Apoyamos la reforestación con proyectos como Treedom y promovemos un uso responsable de los globos.

🛡️ Seguridad y Ética

La seguridad y la ética son nuestra prioridad. Todos nuestros globos se fabrican íntegramente en Italia y cumplen con los más altos estándares europeos, certificados por TÜV, SGS e Intertek. Somos miembros activos de SEDEX, EBPC y el Pacto Mundial de las Naciones Unidas, reafirmando nuestro compromiso con la transparencia y la responsabilidad.

👥 Personas y Comunidad

Gemar es, ante todo, una empresa familiar que valora a las personas. Garantizamos condiciones laborales justas y seguras, y apoyamos a las comunidades locales y globales a través de la educación, la cultura y programas creativos como Balloonista. Crecemos compartiendo e inspirando.

📍 Tradición e Innovación

Con más de cuatro generaciones de experiencia, combinamos tradición e innovación. Cada globo se produce internamente en Italia, asegurando calidad y autenticidad. Nuestro equipo de I+D trabaja constantemente para mejorar la eficiencia y la sostenibilidad con soluciones innovadoras.

🇮🇹 Sostenibilità e Ambiente

Siamo impegnati nella sostenibilità in ogni fase. I palloncini Gemar sono realizzati in caoutchouc naturale e rinnovabile, disponibili anche in una gamma 100% certificata FSC®. I nostri imballaggi sono riciclabili o riutilizzabili e la produzione è alimentata da energia solare pulita. Sosteniamo la riforestazione con progetti come Treedom e promuoviamo un uso sicuro dei palloncini per proteggere l'ambiente.

🛡️ Sicurezza ed Etica

Sicurezza ed etica sono al centro di tutto ciò che facciamo. I nostri palloncini sono prodotti interamente in Italia e rispettano i più alti standard europei, certificati da TÜV, SGS e Intertek. Siamo membri attivi di SEDEX, EBPC e del Global Compact delle Nazioni Unite, a conferma del nostro impegno per trasparenza e responsabilità.

👥 Persone e Comunità

Gemar è un'azienda familiare che mette le persone al primo posto. Garantiamo condizioni di lavoro eque e sicure, e sosteniamo le comunità locali e globali attraverso iniziative educative, culturali e creative come Balloonista. Cresciamo insieme, condividendo e ispirando.

📍 Tradizione e Innovazione

Con oltre quattro generazioni di esperienza, uniamo la forza della tradizione con la spinta dell'innovazione. Ogni palloncino è prodotto internamente in Italia, per garantire qualità e autenticità. Il nostro team R&D è costantemente alla ricerca di soluzioni innovative per migliorare efficienza e sostenibilità.

Lifting the Moment

How to care for your balloons

Let them breath

Remove from transport bag, and store at room temperature.

Too hot too cold

balloons shrink in the cold and will expand with heat. Extreme heat can burst your balloons.

Handle with care

balloons are for display and can be damaged with excess movement.

Enjoy balloons responsibly

Don't let it go!

Please don't release helium balloons outdoors, tie each helium balloon individually to a weight.

Pin it and bin it!

Always dispose of balloons responsibly. Pop them and put them in the bin.

Inflate safely!

Always use a balloon pump and NEVER inhale helium.

Supervise children under 8

Please supervise small children at all times.

Be latex allergy aware

Balloons made of natural rubber latex may cause a reaction in those with latex allergies.

Two paintbrushes with wooden handles and gold ferrules are positioned diagonally on the white paper. One is on the left, pointing towards the top right, and the other is on the right, pointing towards the bottom right. A small glass jar with a white cap, containing a shimmering silver paint, is lying on its side on the wooden surface at the bottom center.
